

# BLADDER CANCER

## Do YOU KNOW THE SYMPTOMS?

**Blood in your pee**  
Even a small amount  
or just once

**Frequent need or  
sudden urgency  
to pee**

**Recurring  
urinary tract  
infections**

Get yourself checked by the GP

**Early diagnosis saves lives**

# BLADDER CANCER affects thousands of people of all ages every year

There are a number of conditions that can cause urinary symptoms, not just bladder cancer. It is really important if you notice or suspect any changes, you discuss these symptoms with your doctor.

**Early diagnosis saves lives.**
