

Do you have  
**blood** in your  
urine?

Ask your GP  
to check for  
**bladder cancer.**

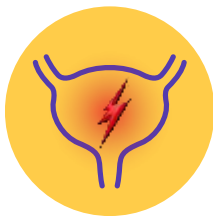

**Don't delay**, because early  
diagnosis could save your life.

**Bladder cancer** symptoms include:

blood in your urine -  
even a small amount or  
just once

pain or burning sensation  
when using the toilet

frequent or urgent need  
to use the toilet
